TRANSIT ON THE MOVE

WHAT IS IT?

Transit on the Move is the transit plan for the Municipality of Anchorage.

It examines how the current transit system is operating and helps determine what's next; where we should add or modify service and how we can make the system better.

HOW DOES IT AFFECT ME?

The current plan has guided us since 2020 and is being updated to align with the communities priorities for the next few years.

Your voice will guide changes to the plan.
